malolactic fermentation carried out

Refinement: steel Color: straw yellow

Fragrance: aggrumate and mineral notes
Flavor: fresh and mineral, with a long finish

Alcoholic Grade: 13% vol

Located in Milly, in the heart of Chablis vineyards, the Dampt domaine boasts 30 hectares of planted vines, 16 of which Premier Cru. The Domaine was created by Daniel in the 50's, together with this father-in-law Jean Defaix, even if his family had been working the vineyard for more than 150 years. Dampt best represents this region, the northernmost part of Burgundy, first with the Chablis village, fresh and ready to drink, then with the 1er cru where, despite different nuances, the terroirs can be perceived. These wines represent the archetype of Chablis wine, elegant and austere in their youth, expressing all their elegance with the passing of time. Refined and elegant wines with a high mineral content, great interpreters of white wines of Burgundy.
