Five friends having dinner together: that is how Derbusco Cives project started. The name itself demonstrates its connection with the soil and the tradition. The company was inaugurated in Spring 2010 when the first bottles "dégorgé" at the end of 2009 were placed on the market, and a new adventure began. 6 wines that comes from 12 hectares in Erbusco: long period sur lie and all with low sugar residuals. The winery follows the "Solo Uva" method, created in 2012 by the team Enoconsulting from Brescia: the grapes are harvested when full ripeness is achieved and then softly pressed. The grapes sugar will be enough for both first fermentation and the prise de mousse. Derbusco Cives, a new producer born to create quality without compromises that has already demonstrated the finesse and elegance of its wines.
