Color: straw yellow with greenish highlights

**Fragrance:** fresh flavours of peach, currant, kiwi, honey, candied ginger and Aranzini (candied orange peel)

**Flavor:** Juicy and supple with pure, concentrated fruit and lime

jelly, lemon zest marks the powerful, long finish

Alcoholic Grade: 12% vol

Fred Loimer, who graduated in the early 1990s, caused quite a stir in Langenlois and the surrounding area because, despite coming from a traditional family of winegrowers, he decided to vinify the must obtained from Grüner Veltliner, Austria's leading grape variety, in barriques. In 1998, he took over the winery from his father and in 2000 had a minimalist black cube built on top of a 150-year-old cellar dug by hand into the loess in Langenlois, adding to the appeal of the already charming Kellergassen, or cellar lanes, and establishing himself as a true pioneer of the wine architecture movement. Closer to nature, Fred practises viticulture that protects the land and resources, thereby increasing the quality of the wines. The Loimer winery began converting to biodynamic agriculture in 2006, and in 2007 Fred, together with many other fellow winegrowers, founded respect-BIODYN, a community that consistently implements and lives biodynamics in viticulture. Spontaneous fermentation with natural yeasts: weeks, sometimes months of maceration on the skins, patient maturation, without intervention or additives are just some of the "secrets" of Fred Loimer and his wines, a true star in the Austrian Kamptal region.
