## **GUNDERLOCH**

Ownership/Founders Hasselbach family / Carl Gunderloch Start of Activity 1890 Vitiviniculture Traditional Hectares 24 Bottles produced 150.000

Founded in 1890, Gunderloch is an icon of Rheinessen, the most extensive wine-growing region in Germany. Fritz Hasselbach, married with Agnes Usinger (the oldest of the sisters who owned the cellar), took the reins of Gunderloch in 1986 and restored its earlier splendor, making the "roter hang" of Nackenheim renowned throughout the world. Fritz, after being graduated in Eltville and taking the degree in Geisenheim (the most prestigious German university in viticulture), he left the management of the business to his son Johannes who, thanks to his international experience, carries out Gunderloch's development producing fine and elegant wines, which are perfect ambassadors of the Rheinhessen.
