

# Hubert Lamy

France - Borgogna Côte d'Or - Saint-Aubin

GRANDS VINS DE BOURGOGNE

*Hubert Lamy*  
Saint-Aubin

**Ownership/Founders** Karine e Olivier Lamy / Hubert Lamy

**Start of Activity** 1973

**Vitiviniculture** Traditional

**Hectares** 18,5

**Bottles produced** 100.000

## SANTENAY CLOS DES HÂTES

100% Pinot Noir

**Production area:** Burgundy, Côte de Beaune

**Terrain:** suolo argilloso e profondo. Esposizione a sud-est

**Harvest:** manual

**Vinification:** fermentation and maceration last about 20 days. Crushing and pumping over are carried out twice a day. No sugaring. Barrel aging (20% new) so that wood is not dominant

**Refinement:** in the cellar the temperature is cold, thus resulting in a very slow evolution of the wines. Malolactic fermentation in cask. De-watering in September (by compressed air). No collage

**Color:** dark ruby red

**Fragrance:** fresh aromas of black fruits

**Flavor:** rich and fat in the mouth with ripe tannins

**Alcoholic Grade:** 13% vol

Descending from a family of vigneroni since 1640, Hubert Lamy, after working with his father, in 1973 decided to create his own domaine. At the beginning it consisted of 8 hectares mostly of "Aoc Regionales". In the 1990s the domaine Lamy started to grow: new areas were planted with vines and, considering the calcareous nature of the soils, many pinot noir vineyards were replaced by chardonnay: today the property consists of 20 different appellations, of which 80% are planted with white grapes and 20% with red grapes. In 1995 Olivier, after studying enology and with several working experiences abroad, joined his father: his contribution both in vineyard and in cellar plays an important role in the growth of this domaine, which is definitely among the most representative of Saint-Aubin. No use of synthetic products for more than two decades, use of organic compost, and great work in the vineyard with clay-limestone soils, shallow with lots of stone, make Olivier Lamy one of the best interpreters of the terroir of Saint-Aubin.
