Harvest: manual

Vinification: grapes destemmed and placed in vats, extraction is by pressing and repumping, maceration for about 20 days at controlled temperature

Refinement: the wine is partly aged in oak barrels for about 6 months, and in concrete tanks

Color: deep cherry red

Fragrance: black fruits, with light notes of spices

Flavor: Round, black fruit (black currants and blackberries)

Alcoholic Grade: 14.5% vol.

6 hectares in red and 1 in white, among the 15 that make up the property, are the heart of the production of the Domaine Ferraton in the Hermitage hill and are mostly located in the lower and central parts of the hill, as well as in the Crozes-Hermitage. The company was founded in 1946 by Jean Orëns Ferraton with his father-in-law Jean Reverdy: he passed on his passion for wine to his son Michel who developed both the vineyard and the cellar. Owned by the Chapoutier family, Ferraton traditionally vinifies both whites and reds to which are added the "Sélections Parcelles", the highest expression of the terroirs of Vallée du Rhone. Reasoned and respectful viticulture of the territory and man is carried out, with the conversion into organic from 2012 of almost all the parcels of the company, which began in 1998. With its fine and elegant wines, perfectly linked to its terroir, Ferraton is today one of the flagships of the appellation and of the entire Rhone Valley.
