**Fragrance:** typical aromas of cherry and morello cherry

**Flavor:** good acidity with slightly bitter finish

**Alcoholic Grade:** 12.5% vol

Mazzi is located on the hills of Negrar, one of the five village in the classical Valpolicella area. The history of the winery dates back on the beginning of 1900 but only around the 1960s, Roberto Mazzi finished his agriculture studies, and he began to bottle wines with the name "Azienda Agricola Sanperetto", dividing the production by the name of its vineyard. The vineyards are located in the excellent hilly areas of Calcarole, Castel, Poiega, Sanperetto and Villa. The vinification of grapes for each "terroir" offers a wide view of Valpolicella where the tiny nuances can be found already from the fragrance of every single wine. This is true for the three Valpolicella and both Amarone that are produced. The location in the "historical" area, now known as classic, does the rest! The Azienda Agricola is currently managed personally by Roberto sons Stefano and Antonio, who blend tradition and innovation when producing fine and elegant wines which are perfect ambassadors of their land.
